- Features locking tabs that securely lock fence rail into routed holes in posts

## Cedar Tongue & Groove Solid Fence

- Pre-built panel saves you time during installation
- Tongue-and-groove pickets offer true, gap-free privacy
- Made of cedar which is naturally resistant to rot and decay

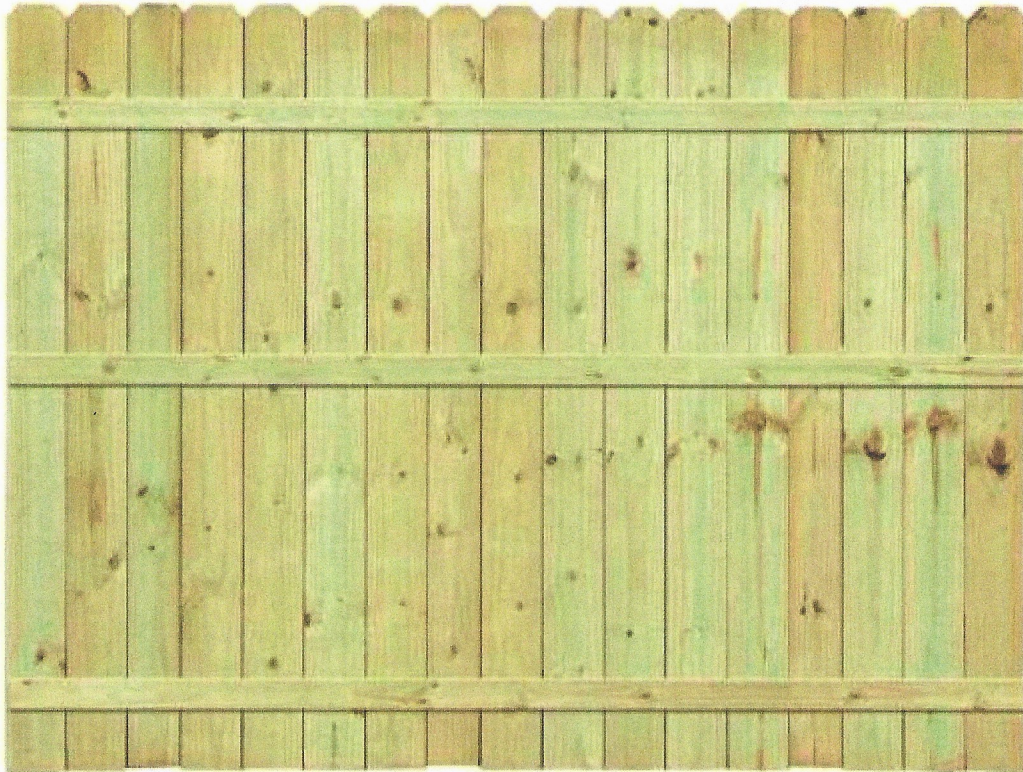

## Yardlink Cedar Fencing

- Installs without digging holes or pouring concrete with patented system
- Panel is constructed of rot and mold resistant cedar wood so panel will last for years to come
- Get the look of a traditional picket fence without the hassle of digging holes and pouring concrete
- Quick connecting, innovative gate design; no screws required - panels and gate connect together using post
- Install panels by driving the post spike into the ground, pass post through eyelets on panel, and attach the post to spike

## Pine Dog Ear Picket Fence

- Suitable for commercial and residential applications
- Includes consultation and installation by licensed professional
- Pressure-treated pine fence resists fungal decay and termites

## Split Timber Bamboo

- We use mature, Indonesian bamboo Gigantochloa Apus for long-lasting fences, will last up to 20-years
- Thick wall of the bamboo poles are drilled and strung on heavy galvanized wire so you don't see the wire
- Thick-walled bamboo used in our fences is cleaned and processed with a coat of natural bamboo oil for protection
- Unique black twine adds strength and charm to the fences
- No assembly required
- 4 ft. W x 6 ft. H
