SOUTHEAST ELEVATION

All rooftop mechanical equipment shall be screened so as not to be visible from any point outside the footprint of the building at or below an elevation equal to the top of the mechanical equipment being screened. The equipment will be screened with panels or other material(s) that: (1) are the same height as the equipment being screened; (2) are designed as a logical extension of the building form and an integral part of the overall building design; and (3) meet applicable building code requirements.
