Instructions for Completing Part 1

Part 1 is to be completed by the applicant or project sponsor. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification.

Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information; indicate whether missing information does not exist, or is not reasonably available to the sponsor; and, when possible, generally describe work or studies which would be necessary to update or fully develop that information.

Applicants/sponsors must complete all items in Sections A & B. In Sections C, D & E, most items contain an initial question that must be answered either "Yes" or "No". If the answer to the initial question is "Yes", complete the sub-questions that follow. If the answer to the initial question is "No", proceed to the next question. Section F allows the project sponsor to identify and attach any additional information. Section G requires the name and signature of the project sponsor to verify that the information contained in Part 1 is accurate and complete.

Name of Action or Project: Butler Subdivision		
Project Location (describe, and attach a general location map): 2 Hillcrest Drive, near Deer Trail, in the southeast corner of the Town of Ossining, Westchester County		
Brief Description of Proposed Action (include purpose or need): The proposed action is a realty subdivision where one (1) existing lot containing a single-family residence is to be subdivided into two (2) single-family lots. One of the two (2) lots will contain the existing residence. Therefore one (1) new building lot will be created. Both lots will conform to the current zoning. The existing house/lot will continue to be serviced by an existing septic system and Town water. The new house/lot will be serviced by a new SSDS and connect to the existing Town water main. Stormwater runoff from the new lot will be treated with Cultec infiltration units. An individual driveway to service the one (1) new lot will be constructed in the existing Hillcrest Drive right-of-way. This new individual driveway will be accessed from an existing driveway within the Hillcrest Drive right-of-way.
