In no event shall failure to obtain the proposals be a bar to the procurement.

Purchases are subject to the availability of funds. Department Managers may not authorize purchases under this section when there are insufficient funds in the designated budget account. The Budget Officer distributes monthly budget expenditure reports showing the available funds in each department account.

**Purchases of \$20,000 and over**

All purchases of materials, supplies and repairs of equipment of \$20,000 or more and all public works contracts of \$30,000 or more requires competitive bidding subject to the laws of New York.

A. The Town Supervisor and Clerk's office shall be responsible for the issuance of required documents, notices and advertisements required under the competitive bidding laws and for the receipt of such bids from vendors.

B. Department Managers will be responsible for preparing information regarding the quantity, quality and specifications of the materials, supplies or work to be furnished.

C. Capital Projects are defined as improvements to the Town's operations in excess of \$12,000 per project. Please consult with the Budget Officer in order to establish a Capital Project number and processing of Purchase Order.

**General Provisions**

1. Where possible, purchases should be made from New York State and Westchester County purchasing contracts. These purchases are exempt from the competitive bidding requirements of General Municipal Law Section 103. Information regarding these contracts is available online at [www.ogs.state.ny.us](http://www.ogs.state.ny.us). The NYS Contract number must be written on claim voucher or purchase order along with a print-out from the OGS website indicating the item is on NYS Contract.

In addition, purchases under any NYS county or local government contracts, or purchased through the Empire State Purchasing Group, Sourcewell (formally National Joint Powers Alliance, NJPA), Keystone Purchasing Network, or OMNIA Partners (formerly US Communities), are permissible, provided that the contract is let in a manner that constitutes competitive bidding consistent with NYS law and made available for use by other governmental entities and subject to the approval of the Town Supervisor.

2. Documentation is required of each action taken in connection with each procurement.

**3. Documentation and explanation are required whenever a contract is awarded to other than the lowest responsible offeror. This documentation will include an explanation of how the award will achieve savings or how the offeror was not responsible. A determination that the offeror is not responsible shall be made by the purchaser and may not be challenged under any circumstance.**

**4. As to the purchase of tires for Town-owned vehicles:**

**I. Any supplier and/or distributor of tires to the Town must be on New York State and/or Westchester County contract.**

**II. Any supplier and/or distributor of tires to the Town must be able to provide all tires required and selected for any vehicle in the Town of Ossining fleet.**

**III. Whenever possible, a supplier/ distributor with a facility within the Town that otherwise meets all other criteria and requirements will be selected to supply tires to the Town.**

**IV. Travel/ delivery time will be factors utilized in selecting a tire supplier/ distributor.**

**V. In selecting a tire supplier/ distributor, preference will be given, if and when possible, to purchase tires from American companies that manufacture tires within the United States.**

**5. As to the use of tow companies and vehicle inspections for Town-owned vehicles:**

**I. All tows of Town-owned vehicles are to be done by Town of Ossining businesses.**

**II. All automotive inspections of Town-owned vehicles are to be done by Town of Ossining businesses.**

**6. Pursuant to General Municipal Law Section 104-b(2)(f). The procurement policy may contain circumstances when, or types of procurement for which, in the sole discretion of the governing body, the solicitation of alternative proposals or quotations will not be in the best interest of the municipality. In the following circumstances, it may not be in the best interest of the Town of Ossining to solicit quotations to document the basis for not accepting the lowest bid:**

**a. Professional services or services requiring special or technical skill, training or expertise. The individual or company must be chosen based on accountability, reliability or responsibility, skill, education, and training, judgment, integrity and moral worth. These qualifications are not necessarily found in the individual or company that offers the lowest price and the nature of these services are such that they do not readily lend themselves to competitive procurement procedures.**

**In determining whether a service fits into this category, the Town of Ossining Town Board shall take into consideration the following guidelines: 1) whether the services are subject to state licensing or testing requirements; 2) whether substantial formal education or training is a necessary prerequisite to the performance of the services; and (3) whether the services require a personal relationship between the individual and municipal officials. Professional or technical services shall include but not be limited to the following: services of certified public accountant; investment management services; printing services involving extensive writing, editing, or art work; management of municipally owned property; and computer software or programming services for customized programs or services involved in substantial modification and customization of pre-packaged software.**

**7. A Request for Proposal must be prepared for Professional Services. This section is adopted from the Office of the State Comptroller's Financial Management Guide, Subsection 8.3020. Requests for proposals are traditionally used as a means of obtaining many types of professional services. RFPs are used to obtain the services of: architects, engineers, accountants, lawyers, underwriters, fiscal consultants, and other professionals. The purpose of a request for proposal is to have an effective way to award contracts for professional services. RFPs and evaluation of the proposals can consider price plus other factors such as experience, staffing and suitability for needs and may include negotiations on a fair and equal basis. The award should be the most advantageous to the Town.**

**The overall process involves making a request for proposals from various firms or professionals, and then evaluating the proposals received. Depending on the complexity of the situation, you may prepare the RFP in house or a consultant could be obtained to help you prepare it. The Town Attorney will review all RFPs, contracts to be executed with the firm selected and any other needed items.**

**There should be a well-planned solicitation effort in order to identify a sufficient number of qualified firms. This can be done by advertising in local trade journals, checking listings of professionals, talking to local officials, etc. A well-planned solicitation effort can result in reduced costs through increased competition.**

**8. Emergency purchases pursuant to Section 103(4) of the General Municipal Law. Due to the nature of this exception, these goods or services must be purchased immediately and a delay in order to seek alternative proposals may threaten the life, health, safety and welfare of the residents. This section does not preclude alternative proposals if time permits.**

**9. Sole Source. Competitive bidding is not required under Section 103 of the General Municipal Law in those limited situations when goods or services are available from only one source. If a determination is made that a particular item is available only from one source so that no possibility of competition exists, competitive bidding may not be required for the procurement of the item. Department Managers must document the unique benefits of the item as compared to other items available in the marketplace; that no other item provides substantially equivalent or similar benefits; and that considering the benefits received, the cost of the item is reasonable, when compared to other products or services in the marketplace**

**10. Purchases of surplus and second-hand goods from any source. If alternate proposals are required, the Town of Ossining may purchase surplus and second-hand goods at auctions, through specific advertised sources, or from Town suppliers, if it can be determined that such purchase is at a fair market value, is in the best interests of the Town, and if approved by the Town Supervisor or Budget Officer. It is understood that it may be difficult to try and compare prices of used goods and that a lower price may indicate an older product.**

**11. Goods or services under \$2,000. The time and documentation required to purchase through this policy may be more costly than the item itself and would, therefore, not be in the best interests of the taxpayer. In addition, it is not likely that such de minimis contracts would be awarded based on favoritism.**

**12. Green Purchasing and Procurement of Services. Recognizing the responsibility of local governments to take effective measures to reduce or limit the environmental impacts of their operations and conserve resources, the Town adopts the following:**

**A. Energy Use:** Priority shall be given to products and services which consume the least amount of energy in their manufacture, use and disposal. Where possible, Energy Star qualification and/or an equivalent elevated measure of efficiency should be a minimum requirement in any energy consuming equipment, device, vehicle or appliance purchase.

**B. Sustainability of Materials:** Priority shall be given to products and services which incorporate products which are made from sustainable materials, and/or contain a significant level of recycled or reprocessed material and which are manufactured locally, and/or which are packaged to reduce transportation costs and/or which are certified by the Forrest Stewardship Council.

**C. Green Fleet:** As part of the replacement of fleet vehicles as necessary, Department Heads must consider zero-emissions or hybrid-emissions vehicles, when practicable.

**13. The Town Board must authorize and approve all change orders on capital construction projects by Town Board resolution.**

**14. The Town Supervisor and Budget Officer shall be the municipal officials responsible for providing guidance and making decisions as to application of this procurement policy.**
