III. ANNOUNCEMENTS

Supervisor Donnelly read the following statement into the record:

Tonight we will complete our discussions concerning the budgets for 2013. We have listened to the public, especially the residents of the unincorporated area, concerning household garbage pickup. As I stated last week, we wanted to give options after we heard that other municipalities were seeing increases in cost when they went out to bid, as well as the fact that we are doing such an excellent job at recycling. Our bids came back very favorable for both options, but we still wanted to hear from the residents. After hearing from most residents that the Unincorporated area still would like a 2 day pickup schedule, the Board awarded the contract with the pickup schedule remaining the same, and the bid happened to be from the same sanitation company as we currently use.

Another item discussed was moving the cable franchise fees from the Town General budget to the unincorporated budget. After much discussion, we will be making that adjustment for the 2013 budget. The auditors agree that, with the changes to the contract for Cablevision, we could move this revenue into the 20 fund from the General Fund. However, we will be moving these funds into contingency for the time being, because we have not yet accounted for our police officer who is out on

disability, referred to as 207-C. While we had thought we had an agreement for him to retire before the end of 2012, we do not have a signed document as of today.

One sticking point is that the Town agreed to pay the difference between his current salary and the Social Security disability & retirement he would be receiving. The Town refuses to pay the difference between his retirement and his salary, while also pay for his social security benefit. Should this be settled, the monies from what would otherwise go to pay this officer's salary would go into fund balance (rainy day fund) and if there is no need to use it, it can be returned to the taxpayers in the budget for 2014.

The Town-wide budget would have increased, especially because of our low tax percent rate, but we believe that we have cut and accumulated enough overages and savings in different lines to enable us to hold down the tax increase for 2013, resulting in just a small increase over the tentative budget.

Tonight we will also be discussing the SRO in the Police budget, the outstanding issue in which our constituents have shown the most interest. We will also have several department heads here to discuss lines and several employees of in their departments.

This Board, as well as the Department Heads, have worked diligently on this budget, and we are committed to ensuring that you receive the services you are accustomed to, while holding down the expenses with realistic revenue projections.
