Re: **Butler Subdivision**  
**Hillcrest Drive**  
**Section 90.19 Block 2 Lot 59**

Dear Chairman Carrera and Board Members:

Mr. William Butler proposes to subdivide a 2.7 acre parcel into three (3) building lots in the Town's R-30 zone. There is one existing house on the property. The proposal complies with all zoning requirements, but a question regarding the road frontage requirement has arisen.

You will see from the enclosed maps that road frontage does exist on Hillcrest Drive, a paper street, and NYS DOT Route 100. In fact there is extensive road frontage on Hillcrest Drive. Two (2) homes currently use Hillcrest Drive for property access. It is proposed to improve the blacktop travelled way to accommodate two (2) additional homes. An area for a turn around has been designed for the end of the proposed improvements. The zoning table on the subdivision Plat and the Integrated Plot Plan shows the cumulative road frontage, comprised of Hillcrest Drive and NYS Route 100, for each proposed lot.

The enclosed copy of the Town's tax map 90.19 shows the subject property outlined in bold line. There are seven (7) lots on the opposite side of Hillcrest Drive with frontage on this paper street covering an aggregate area substantially less than the applicant's property, while having essentially the same road frontage on Hillcrest Drive.

Driveway access to NYS Route 9A is impossible as the State's intention over the past 30+ years has been to both limit new curb cuts, particularly residential driveways, to State highways and eliminate existing ones where possible.

The following is enclosed for your consideration:

- Zoning Board of Appeals Application
- Filing fee of \$150.00
- Ten (10) sets of plans comprised of:
  - Town of Ossining Tax map 90.19
  - Proposed Subdivision Plat
  - Integrated Plot Plan
  - Existing conditions survey

It would be my pleasure to present the matter to your board on March 21, 2016.

Very truly yours,

James J. Vanoli, PE  
Enclosure

Cc: Mr. Wm. Butler
